DETAILED ACTION

Information Disclosure Statement

The prior art submitted by applicant has been considered. See attach copy of form PTO-1449.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claim 1 is rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 1 of prior U.S. Patent No. 6,694,068. This is a double patenting rejection.

Claim 1 of the instant application is identical to claim 1 of US Patent No. 6,694,068.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kim et al discloses substantially claimed PCB board. However, this reference is not available as prior art due to its publication date.
